

# Important Notice

Please be advised that this Fleet site is now only available for key pick-ups from **7:30-9:30 and 3:30-4:30 Mon.-fri.** Our technicians will not be in the office between **9:30-3:30** and are therefore not able to provide keys during that time. Please plan on making your reservations in advance to accommodate this change, as we will no longer be able to schedule late add on reservations for this site. As always, you are welcome to pick up the keys for a scheduled reservation the day prior to that reservation (or on Friday for the weekend and Monday reservations).

We would like to thank you in advance for your cooperation and understanding. If you have any questions, please contact Fleet Services at 302-739-2277.
