School approved for commodity use by DE Dept. of Education or USDA

Food Distribution Program (FDP) representative trains school personnel in procedures and regulations

School allocated commodities based on number of reimbursable lunches served during previous school year.

Schools can request that some commodities be re-processed into more desirable products.

Test samples of products provided by vendors for school approval

Processing agreements approved through either National Processing agreement or State contract.

Commodities sent by USDA to approved processors.

Processed products delivered to commercial distributors or DE FDP warehouse
